

OFFICER* PERSONNEL NOW ON DUTY AT U.S. MISSIONS IN SOVIET Bloc

Tab B

POST	TOTAL NO. OF OFFICERS	STATE	ARMY	NAVY	AIR FORCE	REASONS FOR LIMITATION
Moscow	30	14	6	4	6	Housing
Prague	8	5	1	-	2 (1 civilian)	Ceiling imposed by Czech government. Ceiling raised to 18 in April 1957, an increase of 4. These positions to be filled by 1 Army Warrant Officer, 1 Political Officer, 1 Press and Political Officer, 1 Secretary.
Warsaw	17	12	3	1	1	Polish government imposes ceiling only on the number of military attaches. Housing restricts the total number, but it is expected this situation will improve and permit an increase in the number of state personnel in the near future.
Budapest	14	9	3	-	2	Prior to May 1957, the Department of State had an informal understanding with the Hungarian Government that the total number of Americans at our Legation would not exceed 14.
Bucharest	9	7	2	-	-	Romanian Government has agreed in principle to raise present ceiling of 11, contingent upon a reciprocal raising of the ceiling imposed upon Romanian Legation in Washington. An acute housing situation limits the number of Americans to 9 at present, and the situation must improve before additional personnel can be assigned.

State Dept. review completed

*Clerical, administrative, fiscal, guard, and enlisted personnel are not included in this tabulation, both because they cannot generally travel within the country of assignment and because their figures are extremely confusing due to the whole or part-time employment of dependents in some of the categories. This tabulation is based upon information supplied by the Bureau of European Affairs and the Acquisition and Distribution Division.
